Regan Petersen at Regan@fitzgeraldpetersen.com or Abby Margulies at Amargulies@resnicowschroeder.com

Installation view of the inaugural exhibition. The experience of the collection is enlivened by natural light that enters the galleries through a series of skylights over a cast-in-place, perforated concrete ceiling.

Installation view of the inaugural exhibition. The experience of the collection is enlivened by natural light that enters the galleries through a series of skylights over a cast-in-place, perforated concrete ceiling.

Installation view of the inaugural exhibition, featuring the only three Still sculptures in existence and never-before-seen works on paper. The building features varied gallery heights and sizes designed to accommodate the differing scale of Still's works.
